

Company Strategy

Intent

The strategic intent of Resource Mining Corporation (ASX:RMI) is to establish a long term business model based on mineral development delivering consistent shareholder value whilst operating in a sustainable way within the community and environment in which we operate.

Vision

The vision of Resource Mining Corporation is to realise the value of our world class resource opportunities with the support of our major stakeholders.

Mission

The mission of the company is to create wealth from mineral commodities using innovative technical, marketing and financial skills.

Values

The values of Resource Mining Corporation are collaboration, innovation, creativity, efficiency, and sustainability.

Strategies

The company has a focus on four key areas of its business:

Financial

Our aim is to grow and expand revenue opportunities and improve cost structures by creating and generating new business.

Stakeholders

Our strategy is to engage with the communities in which we operate by providing local employment opportunities, building partnerships, and investing in our brand and reputation.

Internal processes

Innovation, people development and managing risk are the key drivers that will deliver shareholder value.

Mineral commodities

We will focus on the twin drivers of project and process opportunities.

Our project strategy will be global as we aim to develop a portfolio of mineral commodity assets.

Process goals include a focus on science-based innovation, expert environmental analysis and the bringing together of diverse technical information and expertise.
